Learn multiple valuable polymer clay techniques while creating a unique Sea Turtle box in this 1-day workshop taught by Deb Hart. Confident beginners and intermediate and up clayers welcome!

Inspired by Native American culture, this Sea Turtle Box project is a creative mixture of sculpting, cane inlay, and faux stone polymer techniques. The box can be used as home decor, or sized and drilled for hanging as a necklace or ornament. In the process of creating your own unique sea turtle box, you will:

- Create a box form using patterns and a “die form” technique
- Learn at least two simple canes to decorate your box. (More canes will be available for those who want to further embellish their turtles - some free and some for sale)
- Mix polymer clay to make faux turquoise and sculpt the turtle’s body
- Apply an antiquing technique to finish the faux turquoise look
